

SETHU Investor Appendix A: Platform Overview

Generated: 2026-03-28T13:18:16.648Z

- SETHU operates ledger, AI blockchain services (registration anchoring, negative-event logging), DID, and governance infrastructure. AI studio and runtime operate in TokCredAI.
- Operating model: cost-recovery, compliance-first, operational transparency.
- Core service families: Ledger, AI (blockchain: registration anchoring, negative-event log), DID, Billing/Audit, Migration.
- Deployment supports both local TokCredAI mode and SETHU-routed migration mode.
